

### REMARKS

In FIGS. 4 and 5 on sheet 3/10, one reference in each figure to part 48 has been changed to part 46. IN FIG. 14 on sheet 8/10 the reference numeral 30*b* has been changed to 30*a*. In FIG. 15 on the same sheet part 34*b* has been changed to 34*d*. These corrections make the drawings conform to the specification.

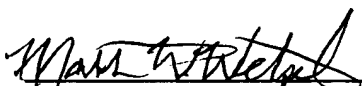

The attached sheets of drawings in Appendix A include formal drawings submitted to replace the informal drawings filed with the original application. For clarity of illustration, there are now 11 sheets total rather than 10, as FIGS. 16 and 17 on original sheet 9/10 are now on sheets 9/11 and 10/11. Original sheet 10/10 is now sheet 11/11. The remainder of the sheet numbering is unchanged, except for the reference to the total number of sheets being 11 rather than 10.

The attached Declaration of Enchao Yu under 37 CFR §1.132 in Appendix B presents evidence in support of patentability.

Applicant respectfully requests entry of the foregoing amendment in that the amendment, filed on the same date as filing of a Request for Continued Examination, merely makes corrections to references numerals to conform with the specification, provides formal drawings, and adds no new subject matter to the application.

Respectfully submitted,

Date: June 9, 2004
